Dear Occupant.

We have been selected by your Building Management to provide service for FLEAS, in your home. There are several things that we will need you to do before service;

1. Remove all unnecessary items off the floor, such as shoes, toys, papers etc.
2. Vacuum all carpeted floor areas and under couch cushions. Throw away vacuum bag or rinse canister with hot water and drain in sink then rinse sink
3. Wash pet bedding and have pet bathed.
4. Everyone, including pets must be out of the house for a minimum of 2 hours.

After treatment is completed, vacuum once a day for 7 days. This will cause the eggs that are lying dormant in your carpet to hatch out faster, and get into the material that we have applied.

Preparation work must be completed BEFORE our arrival in order for treatment to be done. NO EXCEPTIONS!

If preparation is not completed a fee may be assessed by your manager or management company.

It is not unusual to see Flea activity up to 25 DAYS after our application. If you have activity after 25 days, contact your building manager.

If you have any questions, our office hours are 8:30-5:00pm, Monday thru Friday.

Regards,
NORTHWEST PEST CONTROL INC.
