---

Dear Occupant:

We have been selected by your building management to provide pest control services around your building. You will receive this letter prior to our treatment and your managing company will inform you of the date we will be treating. When we treat we will be spraying the exterior of your dwelling or office. Please remove things off your patios so we can get next to the foundation. If items are not removed we will not be able to spray. Do NOT water near the foundation for 24 hours after treatment for this will break down what we applied and make it less effective.

It is important to make sure all pets and children are inside on the day that we treat. Two hours after we finish, pets and children will be allowed to reoccupy the exterior building areas that we treated.

Thank you,  
Northwest Pest Control Inc.
