Dear Occupant:

We have been selected by your building management to provide pest control services for ants. We are scheduled to service the inside of your unit [] AM to [] PM. When we treat for ants we will be baiting inside your unit

It is important to move furniture away from baseboards and any items that prevent us from gaining access to these areas.

Please note problem areas on this sheet and leave on refrigerator so we can target specific areas.

You may see ants feeding on the bait for several weeks, do not be alarmed. Please give our products time to work and do not tamper or spray the baited areas. If you are having ant issues after 30 days please contact your manager and we will come out to retreat if necessary.

Preparation work must be completed BEFORE our arrival in order for treatment to be done. NO EXCEPTIONS

If preparation is not completed a fee may be assessed by your manager or management company.

ANT NOTES

Thank you,
Northwest Pest Control Inc.
