---

Dear Occupant:

We have been selected by your building management to provide pest control services for ants. We are scheduled to service the inside of your unit [ ] AM to [ ] PM. When we treat for ants we will be spraying the baseboards of your unit and baiting inside.

It is important to move furniture away from baseboards and any items that prevent us from gaining access to these areas. We will need for people and pets to be out of the unit for 2 hours after treatment is completed. After 2 hrs you may reoccupy the unit.

You may see ants feeding on the bait for several weeks, do not be alarmed. Please give our products time to work and do not tamper with the baited areas. If you are having ant issues after 30 days please contact your manager and we will come out to retreat if necessary. We apologize for any inconvenience this may cause you.

Thank you,

Northwest Pest Control Inc.
